

IN RETROSPECT

Message from MGA President

Dear MGA Members,

Q3 of 2017 continues to be another busy quarter for MGA where all the Working Committees continued to collaborate to organise multiple activities intended towards advancing the gas industry and bringing value to our members.

Q3 also saw MGA welcoming our new Vice President, Ir. Ahmad Hadri Haris, representing Shell Malaysia, to the Council.

In the same quarter, MGA embarked upon yet another new significant initiative within the Association, when we organized the Forum on Women In Energy. Below, I would like to share an excerpt from my welcoming remarks, where we underlined the importance of increasing women's participation and leadership positions within the energy sector.

"Attracting women to the industry has been both a challenge and a priority for industry players. A survey conducted in 2015 by the International Gas Union (IGU), whereby MGA is a charter member of IGU, showed that 55% of gas companies admitted that they have no target set in terms of gender equality.

The IGU research foresee that under business as usual scenario, the gas industry will remain a male-dominated industry where 3 out of 4 employees are men and where more than half of the companies globally employ over 95% male managers. Not only do women account for a reduced percentage of the gas industry's workforce, but they also tend to work mostly in support or non-technical functions. Women are also largely underrepresented in executive positions and account for only 11% in the oil and gas industry.

At the same time, the IGU research shows that the vast majority of female professionals feel that they can fulfill their career expectations within the gas industry. The research also found the attrition rate for female employees to be significantly lower as compared to their male colleagues, in all regions of the world. Even though the industry hires fewer women than men, female employees tend to outstay their male peers.

Gender diversity is very important for our industry. The global focus on attracting more women into the oil and gas industry is not just about creating a more diverse workforce, it is of vital importance if we are to continue to serve the world's growing energy needs and to support the national transformation for energy liberalisation.

The industry needs innovative people thinking about new technologies and who are also flexible and capable to adapt to the new environment. We will never have the best industry if we are unable to attract the best talent regardless of gender."

As we enter the final quarter of 2017, we look forward to several major events planned for Q4 2017;

- MGA-MOGSC Industry Gala Dinner to be held on 3 November 2017, an event where key players in our industry congregate to enjoy good food, good entertainment and good company.
- PRESTIGE program for universities in the southern region
- Elections for the IGU President for triennium 2021-2024 and host of World Gas Conference 2014

See you all at the Industry Gala Dinner. Come in your favourite P. Ramlee or Saloma costume.

NEW COUNCIL MEMBERS

Ir Ahmad Hadri Haris is the new Vice President of MGA, representing Shell in the Council. He joined Shell on 01st August 2017, and is responsible for Government Relations. Previously he was the:-

- CEO of GreenTech Malaysia (2013 – 2014).
- Director Public Affairs (Asia Pacific) for First Solar (2011 – 2013).
- Chief Technical Advisor to Ministry of Energy, Green Technology & Water (2005 – 2011).

Ir. Hadri is a Registered Professional Engineer and a member of Mensa Malaysia.

En Zahid Osman rejoins MGA Council at an election held during an Extra-Ordinary Meeting on 24th August 2017. En. Zahid is now representing MISC Berhad where he heads the LNG business as their Vice President.

ENGAGEMENTS WITH POLICY MAKERS

Visit to Land Public Transport Commission (SPAD) on 23 August 2017

MGA's RGA WC met SPAD to promote greater utilization of natural gas (NG) in the transport sector, discussing topics;

- NG for Commercial Vehicles
- Virtual Pipeline
- Price of NGV

WORKSHOPS

Workshop on Gas Advocacy Communication Strategy on 02 October 2017

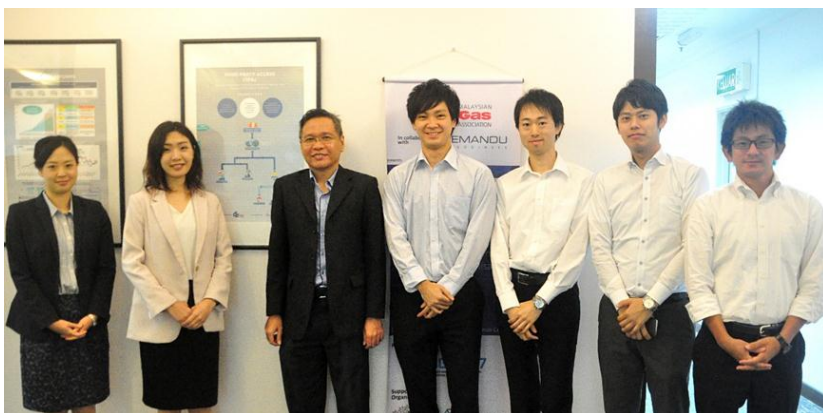

Organised by MGA, PETRONAS & Shell

MGA, through ADV and C&M WC, in collaboration with PETRONAS and Shell, organized a workshop to revisit and strengthen MGA's Communication Strategy on Gas Advocacy.

#GasAdvocacy

VISIT TO MGA

Visit by JXTG Nippon Oil and Energy Corporation Japan on 03 October 2017

MGA received a delegation from the downstream division of JXTG Nippon Oil and Energy Corporation Japan, which is best known for its oil and lubricant products marketed under the ENEOS brand. Comprising young executives, the delegation was on a week-long tour of Malaysia to familiarize themselves with Malaysia's oil and gas industry.

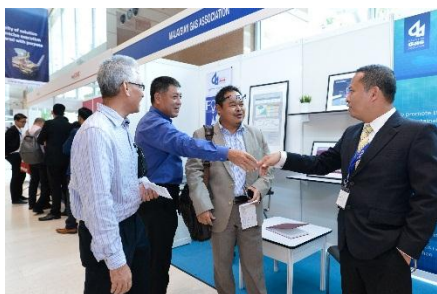

EXHIBITING AT OGA 2017

MGA showcased the association and its activities with focus on gas advocacy at OGA 2017, held in the Kuala Lumpur Convention Center from 11 to 13 July 2017. Besides friendly hosts and hostesses, the other main attractions included new Gas Advocacy posters, specially produced in collaboration with Energy Commission and PEMANDU, interactive panels offering information on natural gas and the recently released report on “Natural Gas: Flipping the Switch”.

MGA President accompanied YB Deputy Prime Minister of Malaysian on stage to officiate the opening of OGA 2017

MGA’s booth was well visited by oil & gas senior executives, industry players, international delegates and university students.

Forum on Women In Energy

Theme : Women – Driving Energy Liberalisation

13 July 2017 at Kuala Lumpur Convention Center

FoWiE 2017 was organised by MGA on 13 July 2017 in collaboration with PEMANDU. Themed “Women – Driving Energy Liberalisation”, the event was supported by the 30% Club, PETRONAS Leading Women Network (PLWN), Shell Women Action Network (SWAN) and GE’s Women Network .

Attended by more than 200 industry players, the forum not only provided an important platform to discuss greater involvement of women, particularly in leadership positions, it also offered rare networking opportunities amongst women in the energy sector.

MGA will be organising a roundtable session in November 2017 to discuss the findings from FoWiE 2017 and the way forward. Contact us if you want to get involved.

CLIMATE CHANGE

**Screening of “An Inconvenience Sequel
– Truth to Power” on 24th of August 2017.**

MGA members were amongst the first in Malaysia to view Al Gore’s sequel to “An Inconvenient Truth (2006)”. This new movie followed the efforts made to tackle climate change and Al Gore’s attempts to persuade governmental leaders to invest in renewable energy, culminating in signing of the Paris Climate Agreement in 2016.

#ClimateChange #InconvenientTruth

“As a Gen Y working for the MGA secretariat, this movie has opened my eyes to climate change and the role the youth can play in securing our future. The movie empowers youth, through uplifting and inspiring success stories, to play an essential role in informing the community.

I think Al Gore is a man full of adrenaline with a great purpose in life. He has succeeded in capturing the attention of youth like me to work together in saving the world for the future. I believe, some in my generation are still not aware of the seriousness of climate change that we have endured for the past many years that not only happened in Malaysia but all over the world.

I was intrigued in the process on how AL Gore manages to tackle all the problems that come his way. For example in this movie, he managed to come with solutions to tackle the climate change obstacles. The efforts that he genuinely went to meet all ranks of people, asking and approaching them just to identify their problems, effects and causes to what they are having now. This process, this little process looks normal to people but somehow it stayed with me and I believe that everybody can do this. It’s the climate change that we must be talking about.

Motivated is the key word for a “Gen Y” like me. That is how I felt after watching this movie. To whatever misfortunes and bumps he has faced, perseverance, passion and belief always got him through accomplishing his missions. In my opinion, these are the values that we should inculcate in everyone, especially the future generation.”

Movie review by MGA’s Sarah Musfirah

UPCOMING TRAINING

MGA in collaboration with TED Learning, is pleased to invite you to participate in a 2 days MS Excel Advance training at a special deal offered for MGA members .

Details of Training

Date : 25 & 26 October 2017 (Wed & Thurs)

Time : 9 am to 5pm

Location : Menara Binjai, Jalan Binjai, Kuala Lumpur

Training Fee : RM 600/pax; HRDF Claimable.

(normal published rate is RM900)

Why MS Excel Advance Level ?

Microsoft Excel spreadsheet software has become an integral part of most business organizations across the world. Everyone of us knows all the basic functions of MS Excel, but there are many advance terms associated with it that not many are aware of. If you are interested to move your staff ahead from the basic functions to complex formula and techniques, to enhance their work productivity and efficiency, here is the opportunity to do so.

Pengerang Co-Generation Plant

Pengerang Marine Operations Center

Utility-sized solar farm in Melaka

**Technical Visit to Pengerang
From 12-13 September 2017**

MGA took 35 members from 17 organisations on a successful technical visit to Pengerang, with a stopover in Melaka.

MGA visited the following facilities in Pengerang;

- PETRONAS’ Pengerang Co-Generation Plant (PCP), the largest Co-Generation Plant in this region, capable of generating more than 1,200MW of power and producing more than 1,400tph of steam.
#PCP, #CoGen
- Dialog’s Pengerang Marine Operations, that has been granted a license by the Johor Port Authority to manage, monitor and coordinate movement of all vessels within the area and to coordinate jetty license applications.
#Dialog, #PMSOB

During the visit to the Marine Operations, MGA also arranged presentations by the following facilities;

- PETRONAS’ Re-Gasification Terminal 2 (RGT2)
#RGT2
- Dialog’s Pengerang Independent Terminals
#DeepwaterTerminal

Enroute to Pengerang, MGA arranged a visit to Gading Kencana’s 8MW Utility Scaled Solar PV Farm or also known as Kompleks Hijau Solar in Ayer Keroh, Melaka.

CONFERENCE** | JUNE 25-29
WASHINGTON DC | **2018**
IGU

MGA’s Patron, Tan Sri Wan Zulkiflee Wan Ariffin, will be speaking at the keynote Session on “What Next For The Asia Pacific Gas Market?” to be held on 27 June 2018

SECRETARIAT GOING GREEN

Afira opting for a cleaner means of transport by taking MRT to work from Station Sg. Jerneh (Kajang) to Station Bukit Bintang. It takes approximately 35 minutes to reach the heart of Kuala Lumpur. She is now officially #GoGreen

“Let’s ride the train together”
#jomnaikmrt

Murni joined the bandwagon of homeowners who adorned their rooftops with solar PV panels. Initially motivated by the extra income that could be generated by the FIT system (Feed-in Tariff), she is indeed proud to be one of the contributors to renewable energy in Malaysia. She hopes the government and responsible parties will continue to improve the FIT scheme as well as the solar PV technology to attract more residential owners investing in the program.
